April 5, 2018

Dear Kent:

I write to commend you on organizing your upcoming and amazing tour on The Three Days of the Battle of Gettysburg – April 11-14 - this should truly be a tour-de-force!

And kudos too, for your other history related activities through the Witnessing History Education Foundation, Inc. You are making a positive difference by bringing high quality American history before the public through documentary films, publications, talks and tours.

Having had the privilege of working with so many renowned historians over the last thirty years, I can tell you that there are none I know who surpass you in terms of knowledge, presentation and teaching skills, and pure eloquence.

Thank you for all you have done for our organization (and the entire history field) going back into the early 1990's and continue to do. You are the gold standard.

Thanks very much, Kent, and

Best Regards.

Bob Maher  
President  
Civil War Education Association
